SKILLS AND EXPERTISE

- Logical thinking
- Software debugging
- Computer programming
- Problem Solving
- System troubleshooting
- Team collaboration
- Solution design
- Technical communication

PROJECTS

AI-Powered Email Generator

React, Node.js, OpenAI API, Tailwind CSS

- Developed an automated tool that generates context-aware professional emails from user prompts.
- Integrated OpenAI GPT models to generate professional emails with diverse tones and multilingual support.

Logistics & Inventory Management System

SQL, PostgreSQL, Express, React

- Designed a relational database schema to track real-time inventory across multiple warehouses.
- Enhanced data integrity with server-side validation and automated error logging.

News Sentiment & Stock Market Analysis

Python, FastAPI, Alpha Vantage API, VADER

- Engineered a full-stack analytics tool linking real-time financial news sentiment with stock price movements.
- Implemented Natural Language Processing (NLP) to analyze daily news headlines and generate sentiment scores for market trends.

EDUCATIONAL HISTORY

BS Software Engineering

*Adama Science and Technology University |
2023 - Expected 2028*

Full Stack Web Development

Evangadi Tech | Nov 2025 - Jun 2026
